DETAILED ACTION

Drawings

1. The drawings received on 31 August 2006 are accepted by the examiner.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance for Claims 1-13: the prior art does not disclose or suggest a measurement device for linear non-contacting recording of a variable-position object including a field device which is rigidly connected to the object, a measurement path is formed by a track which is in the form of a strip and has magnetoresistive characteristics, which track makes contact on each of its two opposite longitudinal faces with a resistance track composed of normal resistive material, between which measurement signals which are correlated with the position of the field device can be tapped off in combination with the remaining limitations of the claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The prior art listed in a PTO-892 and not mentioned above disclose related features.
